

Output:

The screenshot shows a web browser window displaying the "NANDINI'S Hotel Invoice" application. The page has a yellow background. At the top, it says "NANDINI'S Hotel Invoice" and "Mar 22, 2024 11:09 AM". Below this, there is a form with two input fields: "Select Item:" with a dropdown menu showing "Select an Item", and "Number of Selected Items:" with a text input field. To the right of these fields is a blue "Add Item" button. Below the form is a section titled "List of Items" which contains a table with the following headers: "S.No.", "Item Name", "Item Quantity", "Cost Per Item", and "Total Cost". The table is currently empty. Below the table, the following text is displayed: "Total Cost of Items: 0", "GST (5%): 0", and "Bill Amount: 0". At the bottom of this section is a blue "Print" button. The browser's address bar shows "localhost:3000". The Windows taskbar at the bottom shows various application icons and the system clock indicating "11:09 22-09-2024".

The screenshot shows the same "NANDINI'S Hotel Invoice" application, but now with one item added. The "Select Item:" dropdown menu is set to "Vada" and the "Number of Selected Items:" text input field contains the value "1". The blue "Add Item" button is still present. The "List of Items" table now contains one row with the following data: "1" in the "S.No." column, "Vada" in the "Item Name" column, "1" in the "Item Quantity" column, "20" in the "Cost Per Item" column, and "20" in the "Total Cost" column. Below the table, the following text is displayed: "Total Cost of Items: 20", "GST (5%): 1", and "Bill Amount: 21". The blue "Print" button remains at the bottom. The browser's address bar still shows "localhost:3000". The Windows taskbar at the bottom shows the system clock indicating "11:10 22-09-2024".
